The Only Paper in the City That Receives Fresh News.

FORT WAYNE, Ind., Oct. 8.

This is to certify that THE FORT WAYNE SENTINEL and the FORT WAYNE GAZETTE are the only newspapers in the city of Fort Wayne that are members of the Western Associated Press and receive Telegraphic News.

O. L. PERRY,
Manager of the Western Union Telegraph Office.

LOCAL NEWS.

Gas Stoves at cost at Gas Office. 2-tf
Mr. and Mrs. Ed. Wood are visiting relatives at Pittsburg.

Mrs. Job Barnard, of Washington, D. C., is the guest of the Misses Simons.

One thousand bushels of strawberries have been raised in the vicinity of Bluffton this year.

B. M. Holman, business manager of the Gazette, will fish this week at Maxinkuckee.

Capt. J. C. Purdy, chief of Toledo police, is dying. The captain served in the war with many Fort Wayne soldiers.

Dr. George R. McIntosh is no longer connected with the Standard Life Insurance company. He will remove to California.

The Library Hall literary and dramatic society will be reorganized this fall if Rev. J. F. Lang chooses to take charge of it.

Seroflous diseases manifest themselves in the spring. Hood's Sarsaparilla cures the blood, and removes every trace of scrofula.

The last train agent in the employ of the Wabash was pulled off last week and conductors are no longer subject to the annoying attentions of the spies.

The Wabash Courier says: "Miss Louise Horton, a charming young lady of Fort Wayne, was in the city yesterday, the guest of Miss Hattie Rose."

On the person of a vagrant arrested last night, Chief Diehl found a gold watch. He thinks it is the ticket stolen from young Faulkner on the Fourth.

There was a falling off of 2,700 in the number of loaded cars sent out of the Andrews yards, in June, compared with the corresponding month of last year.

The new state laws, those not having the emergency clause, will not go into effect before August 15, as they will not have been printed and properly distributed prior to that time.

The Andrews Express says: "Conductor Gates, of the Fort Wayne & Louisville railroad, accompanied by his wife, is visiting in Andrews, the guests of their daughter, Mrs. B. F. Hays."

Peru received another blow last week when the Wabash dropped the Toledo, Peoria and Western division. Trains of this branch were run over the main line to Peru, but the eastern terminus of the line is now at Peru.

William W. Rockhill, of Maryland, recently appointed secretary of the legation to China, is a cousin of William Wright Rockhill, Fort Wayne's popular clerk. Wright sent personal congratulations to his namesake.

So long as we have such an extensive trade with Great Britain, friendly relations will be maintained with us; and now that St. Jacobs Oil is a household word in England there can be no need of diplomatic negotiations.

The road train of the Wabash has been engaged between this point and Peru picking up old ties strown along the right of way. Several heavy fills, which had been damaged by the high water, were also repaired by the gang of men.

The Indianapolis Times says: "It is to be hoped that the council will afford the Jenny company and equal chance with the Brush company. Let both illuminations be fully tested. There is no reason for any fine diplomacy. If anybody wants to light the city without charge he ought to be allowed to do it."

D. S. Alexander, fifth auditor of the U. S. treasury, is at Indianapolis, and has notified Secretary Manning that he will vacate his office this week and can not possibly return to it, on account of business engagements beginning July 15.

He will practice law at Indianapolis. Mr. Alexander was formerly editor of the Gazette, and it was under him that S. E. Morse began his brilliant journalistic career.

From the Reverend Clergy.

Among the many ministers of the gospel who have been helped by Brown's Iron Bitters, the Rev. E. A. Spring, Corydon, Ind., says: "I used it for general ill-health and found it great help." Rev. Jas. McCarty, Fort Stevenson, Ind., says: "It cured me of severe dyspepsia and increased my weight twenty-five pounds." The Rev. Mr. Olney, New Bern, N. C., says he has taken it, and considers it one of the best medicines known. The Rev. Mr. Whitney, Hingham, Wis., says: "After a long sickness from lung fever I used Brown's Iron Bitters and gained strength." So throughout the states with hundreds and hundreds of other clergymen.

HOW WE DID IT.

The Glorious Fourth a Thing of the Past—Incidents of the Day—The Circus.

Another Independence Day is recorded in the red book of time and this great nation keeps right on in anticipation. Fort Wayne had exhausted its enthusiasm on the recent Seengerfest and the regulation amount of enthusiasm did not manifest itself. However, the occasion served to stir patriotic impulses from the American heart—and every heart was truly American. The booming of cannon, the fizz-bang of the fire cracker and piercing flight of the rocket made the day hung and all were reminded

That the perfume of powder
Permeates the whole land,
And the small boy is glee-ful—
The Fourth is at hand.
He will moway with cannon,
But won't it wax wroth,
When flying in fragments,
His hand writh forth.

One thousand people came in on the railroads and fully 3,000 came in on vehicles. These people and the natives divided their time between the circus and picnic. The Arion—Seengerfest concert at the Tivoli garden attracted quite a crowd and the German Lutheran Picnic at the fair grounds was much of a success. The circus caught a tremendous crowd in the afternoon and there was not a vacant seat under the immense canvas. The performance was very good. Everything was not new but everything was novel and executed with admirable skill. Mr. Forepaugh has allowed nothing to escape his attention and permits no feature to tire his patrons. The attendance in the evening was not as good as the occasion warranted and the program was contracted. The after concert was a good feature. Mr. C. A. Davis, Mr. Forepaugh's press agent, made everything pleasant for the newspaper men and is one of the sort of fellows it is always agreeable to meet and sweet to remember.

NOTES OF THE DAY.

Forepaugh has 200 horses and 335 men with his show. The circus people all breakfasted with Col. Jim Wilkinson, at the Hedekin house. Forepaugh paid Chist. Newcomer \$25 for a release from his contract to show on the Hamilton ground. Supt. W. W. Worthington is a personal friend of Adam Forepaugh and the great manager was a caller at Mr. Worthington's home. The receipts of the afternoon circus performance was \$2,100 and in the evening \$1,500 was counted. This did not include the sale of reserved seats, for which Mr. Forepaugh charged 50 cents.

Marshal Meyer and Captain Deihl had their men out all day and maintained splendid order. One of Pinkerton's detectives travels with Forepaugh and with Lieut. Frank Wilkinson watched matters closely at the circus.

Mr. Forepaugh said to a prominent gentleman this he loses this season aggregated \$125,000. At one time he believed it necessary to leave the road, but now business is picking up and he expects to recover the fortune he dropped.

Four young men reported to the police that their watches were nabbed. One young fellow lost his ticket at the apple orchard and another at the Tivoli garden. The third was asleep near Moran's ice house when his time-piece was lifted, and the fourth lost his at the circus.

The Electric Light.

The Jenny Electric light company is now renewing a proposition to light Logansport for \$25 per lamp cheaper than in Fort Wayne, and in a paper to the council these statements are made: "Some time in the fall of 1883 this company entered into a contract to furnish the city of Logansport with electric light at the price of \$100 per year per light for fifty lights, or less, over fifty lights at \$150 per year. We have now been furnishing over fifty lights for more than a year at \$100 per year per light. The company has labored under many disadvantages and have spent a large amount of money to get our works in first class order. The price we have been getting has been at a loss to this company."

"We will light the territory that the gas company heretofore lighted, for the sum of \$1,500 per year, payable monthly. We will also furnish all the additional lights you may order for the sum of \$125 per light, payable monthly."

PETOSKEY FISH.

A. Connable & Son, proprietors of the well-known Petoskey fisheries have opened a fish house at No. 57 East Main street. Telephone No. 217 for the very best Petoskey white fish and trout.
